Summary: Recent graduate from the University of California, Irvine's Coding Bootcamp class. Within six months, I learned from knowing nothing in the coding world, to being able to create a full fledged site using HTML, CSS, and Javascript. While also incorporating a functioning front and backend using frameworks, such as React, raw CSS, and my personal favorite Tailwind, even though I can also use Bootstrap. On the back-end, I use Node.js and Express.js for server needs, while also using MYSQL, and MongoDB as my preferred database management system.

Skills:

- Proficient in HTML, CSS, JavaScript
- Familiarity with front-end frameworks (e.g., Bootstrap, React, Tailwind)
- Understanding of responsive web design principles
- Knowledge of version control systems (e.g., Git)
- Experience with web development tools (e.g., Visual Studio Code)
- Basic understanding of back-end technologies (e.g., Node.js, Express.js)
- Familiar with database management systems (e.g., MYSQL, MongoDB)
- Knowledge in Sequelize, and Mongoose, in order to use MYSQL and MongoDB with Javascript.
- Understanding of GraphQL
- Familiarity with cross-browser compatibility and accessibility standards
- Strong problem-solving and analytical skills
- Excellent attention to detail and ability to meet deadlines
- Effective communication and teamwork abilities

Education:

- Graduated through University of California, Irvine's Coding Bootcamp course and earned my certification. June 12th, 2023

Projects:

- My Github Account: <https://github.com/nshaw973>
 - Connected (LinkedIn Clone Model)
 - Created with a group of 2 other students to showcase our skills in creating a site using the MERN stack.
 - Currently incomplete due to limited amount of time for when the project had to be due
 - Worked on some of the styling used with Tailwind and some base CSS
 - Worked on getting the server setup
 - Created the ability to create new users and to log back in to the site, and remember the logged in user throughout the site.

- <https://github.com/nshaw973/Connected>
- Added Stripe functionality to allow donations to be made. Currently its in test mode to showcase that stripe is working.
- Worked on UI functionality to allow Responsive Design, to make sure the navbar and the rest of the site was properly adjusting to the current screen size.
-
- The Marketplace (Online Shopping Model)
 - Created with a group of 4 other students in my time with The UCI Coding Bootcamp
 - I worked on creating creating the server, and setting up the database(MYSQL)
 - Also worked on the front-end to get the profile and the user profile image uploaded using Multer.
 - <https://github.com/nshaw973/The-Marketplace>

Work Experience:

- Audio engineer at California Sound Studios, Lake Forest, CA (November 2018 - January 2020)
 - Worked with clients on music projects to record, mix, and master their projects.
 - Establishing professional friendships with clients, and working alongside the inhouse producer, or a producer the band had brought in. to help make their project into the vision they had imagined it to be.
- Specialty Assistant Team Leader at Wholefoods Market, Newport Beach, CA (July, 2016 - Current)
 - In charge of the Specialty section of the store, where we oversaw the artisanal and alcoholic beverage sections.
 - Managed a team of eight people, each with specific tasks to help run the department
 - Focused on following monthly merchandising guidance from coordinators.
 - Handled the financials and made sure metrics were being met.

Certifications:

- Certificate in Web Development University of California, Irvine, 2023
 - <https://www.parchment.com/u/award/ca7cf8c44810fb994734576a0b4aa15d>

Additional Skills:

- Excellent problem-solving and debugging abilities
- Strong attention to detail and ability to work independently
- Team management skills
- Able to show initiation and find the best possible to tackle problems that arise.

- Very Competitive with myself to make sure my work stands out and can be something I am personally proud of
- Continuous learner, keeping up with the latest web technologies
